Modernization Act (MMA) of 2003, the annual update to the local clinical laboratory fees for 2007 is zero (0) percent.

Section 1833(a)(1)(D) of the Act provides that payment for a clinical laboratory test is the lesser of the actual charge billed for the test, the local fee, or the National Limitation Amount (NLA).

The Part B deductible and coinsurance do not apply for services paid under the clinical laboratory fee schedule.

National Minimum Payment Amounts

For a cervical or vaginal smear test (pap smear), §1833(h)(7) of the Act requires payment to be the lesser of the local fee or the NLA, but not less than a national minimum payment amount. Also, payment may not exceed the actual charge.

The 2007 national minimum payment amount is \$14.76 (\$14.76 plus zero percent update for 2007). The affected codes for the national minimum payment amount include the following Current Procedure Terminology (CPT) codes:

88142	88143	88147	88148	88150	88152	88153
88154	88164	88165	88166	88167	88174	88175
G0123	G0143	G0144	G0145	G0147	G0148	P3000

National Limitation Amounts (Maximum)

For tests for which NLAs were established before January 1, 2001, the NLA is 74 percent of the median of the local fees. For tests for which NLAs are first established on or after January 1, 2001, the NLA is 100 percent of the median of the local fees in accordance with §1833(h)(4)(B)(viii) of the Act.

Additional written comments from the public were accepted until September 26, 2006.

Additional Pricing Information

The 2006 laboratory fee schedule includes separately payable fees for certain specimen collection methods (codes 36415, P9612, and P9615).

For dates of service January 1, 2007 through December 2007, the fee for clinical laboratory travel code P9603 is \$0.935 per mile and for code P9604 is \$9.35 per flat rate trip basis. The clinical laboratory travel codes are billable only for traveling to perform a specimen collection for either a nursing home or homebound patient. The standard mileage rate for transportation costs was increased by the Federal Government's Treasury Department to 48.5 cents a mile and this amount is incorporated into the fees for travel codes P9603 and P9604.

The 2007 laboratory fee schedule also includes codes that have a 'QW' modifier to both identify codes and determine payment for tests performed by a laboratory registered with only a certificate of waiver under the Clinical Laboratory Improvement Amendments (CLIA).

Based on comments and data submitted, codes 83037 and 83037QW are priced by crosswalking to code 82985.

Organ or Disease Oriented Panel Codes

Similar to prior years, the 2006 pricing amounts for certain organ or disease panel codes and evocative/suppression test codes were determined by Medicare by summing the lower of the fee schedule amount or the NLA for each individual test code included in the panel code.

CMS advises the following:

Laboratory Costs Subject to Reasonable Charge Payment in 2006

For outpatients, the following codes are paid under a reasonable charge basis. In accordance with 42 CFR 405.502 – 405.508, the reasonable charge may not exceed the lowest of the actual charge or the customary or prevailing charge for the previous 12-month period ending June 30, updated by the inflation-indexed update. The inflation-indexed update is calculated using the change in the applicable Consumer Price Index for the 12-month period ending June 30 of each year as prescribed by §1842(b)(3) of the Act and 42 CFR 405.509(b)(1). The inflation-indexed update for year 2007 is 4.3 percent.

Manual instructions for determining the reasonable charge payment can be found in the *Medicare Claims Processing Manual*, Chapter 23, §80-80.8. If there is insufficient charge data for a code, the instructions permit considering charges for other similar services and price lists. The *Medicare Claims Processing Manual*, is located at <http://www.cms.hhs.gov/Manuals/IOM/list.asp#TopOfPage> on the CMS website.

When these services are performed for independent dialysis facility patients, *Medicare Claims Processing Manual*, Chapter 8, §60.3 instructs the reasonable charge basis applies. However, when these services are performed for hospital based renal dialysis facility patients, payment is made on a reasonable cost basis. Also, when these services are performed for hospital outpatients, payment is made under the hospital outpatient prospective payment system (OPPS).
